Preamble

WHEREAS, Continuously improving the quality, safety, and cost-effectiveness of health care is one of the most significant public policy questions facing government; and

WHEREAS, Lack of information regarding previous medical care can lead to unnecessary duplication of services and inaccurate decisions regarding current medical care; and

WHEREAS, Unnecessary duplication of services and inaccurate decisions regarding medical care can lead to harm to patients, higher medical malpractice costs, and higher health care costs; and

HOUSE BILL 979

1 WHEREAS, Sharing information among health care providers is in the public
2 interest and can lead to a reduction in medical errors and duplicative services, which
3 will improve patient safety, quality of care, and affordability of health care; and

4 ~~WHEREAS, The Maryland/D.C. Collaborative for Healthcare Information~~
5 ~~Technology has engineered a solution that will enable information regarding previous~~
6 ~~care to be available at the time of current care using a ubiquitous statewide web~~
7 ~~portal; and~~

8 ~~WHEREAS, Developing this infrastructure requires careful planning and the~~
9 ~~involvement of key stakeholders; and~~

10 ~~WHEREAS, The Maryland/D.C. Collaborative for Healthcare Information~~
11 ~~Technology has brought together representatives of key stakeholders and has~~
12 ~~concluded the careful planning needed for a regional health data exchange~~
13 ~~infrastructure; and~~

14 ~~WHEREAS, The Maryland/D.C. Collaborative for Healthcare Information~~
15 ~~Technology has secured matching funding from its own members for the~~
16 ~~implementation of a regional health data exchange and has developed a long term~~
17 ~~sustainable financial model; and~~

18 ~~WHEREAS, The Maryland/D.C. Collaborative for Healthcare Information~~
19 ~~Technology needs additional funding to establish the long term viability of a regional~~
20 ~~health data exchange network; and~~

21 ~~WHEREAS, The State of Maryland has an "all payer" Health Services Cost~~
22 ~~Review Commission that promotes quality, safety, and cost efficiency to the citizens of~~
23 ~~the State; and~~

24 ~~WHEREAS, The long term savings for the health care system from a successful~~
25 ~~regional health data exchange infrastructure would make health care coverage more~~
26 ~~affordable for all Marylanders and help reduce the cost of uncompensated care; and~~

27 ~~WHEREAS, Chapter 201 of the Acts of 2005 established the Task Force to~~
28 ~~Study Electronic Health Records; and~~

29 ~~WHEREAS, A regional health data exchange will carry forward the momentum~~
30 ~~created by the Task Force to Study Electronic Health Records; now, therefore,~~
